A Modern, Flexible Government LMS

A Native ServiceNow Application, PlatCore's LMS has unmatched power to meet the unique needs of public sector agencies. Finally, training can leverage your existing approvals and procurement as well as ServiceNow's world-class security, flexibility, reporting and scalability. Deploy staff (or citizen) training directly from your existing ServiceNow instance - in a **FedRAMP, cloud-based or on-premise solution.**

Our public sector customers have **seen million-dollar savings**, including greater accountability, fewer training systems, automated processes, reduction in unused training costs, real-time training data and much more.

PlatCore's modern, centralized learner portal helps provide **great training experiences with greater efficiency.**

What makes PlatCore different?

Consolidate Systems

Deliver employee training from ServiceNow's platform for reduced risk and an incredible time to value. Centralize training to break down silos, improve data integrity & reporting.

Automate Processes

Create training workflows and actions across your entire company. Focus on creating great training experiences and spend less time on tedious, repetitive administrative work.

Learner Focused

Unify your training materials (including third party courses, SCORM, XAPI, AICC, Video, MSDocs, PDF and more) in our modern learner portal for consistently great experiences.

PlatCore LMS, and its integration with ServiceNow, has allowed us to do things we wouldn't have been able to do with any other LMS vendor. **PlatCore is so much more than a typical LMS!**

★★★★★

PlatCore is very easy to use and create learning courses. It's configurable and flexible - you can enable staff, vendors & partners all at once. **This is a must-have for any ServiceNow agency.**

★★★★★

Features our public sector clients love.

A Native Application, PlatCore harnesses ServiceNow's power and data at scale to perform actions beyond typical learning management. Here's how we measure up:

⊘ Multiple hosting options

Deliver training directly from your existing ServiceNow instance – in a FedRAMP, cloud-based or on-premise solution.

⊘ Compliance and Accountability

Create dynamic and recurring training assignments. Configure out-of-the-box **OPM competencies** and **SF 182 forms** to meet your exact training needs.

⊘ Centralized Data and Reporting

Customize real-time reports and dashboards to track learning progress, training spend, and monitor compliance.

⊘ Robust Documentation & Support

Our fantastic support team, video training series and extensive documentation have all been built to ensure your success.

⊘ Simplified Procurement

Leverage your existing platform, and our partnership with Carahsoft, to greatly simplify the procurement process.

⊘ Quickly Create and Deliver Courses

Rapidly build new courses and import your existing content with limitless content types (including SCORM, XAPI, AICC, video, MSDocs, PDF and more.)

⊘ Support for Different Training Types

Create a centralized learning center with any self-paced, e-learning, instructor-led, learning plan, virtual classroom or 3rd party courses.
