

Jr Developer Position

Role Brief

PlatCore is seeking a Junior Developer to play an important role in product delivery, support, and delivering consistent value to our clients. As a PlatCore junior developer, you will play an important part in development of our innovative products. You will train, be mentored in, and become expert in ServiceNow front-end technologies and PlatCore products. You will also gain experience through supporting our clients and products. Support responsibilities will include working with clients, escalating issues internally or to ServiceNow, and being the face of PlatCore support via e-mail, phone, or chat. PlatCore is experiencing explosive growth and offers numerous perks and benefits. We are seeking bold thinkers who want to be a part of our continuing journey.

Responsibilities

- Under guidance of PlatCore architects and developers, perform platform administration, design, development, and implementation of PlatCore software solutions.
- Attend and contribute to team development meetings.
- Work on minor bug fixes as assigned.
- Conduct development tests.
- Document technical knowledge in the form of notes and manuals.
- Manage client tickets and escalate unresolved issues to appropriate internal teams.
- Troubleshoot and resolve technical issues for PlatCore products.

Requirements

- 3+ years of general experience.
- HTML5/CSS3/Bootstrap experience.
- JavaScript, Angular JS, React, and REST APIs experience.
- Strong organizational, written, and verbal skills to facilitate client interaction and task completion.
- Strong problem diagnosis and creative problem-solving skills.
- Thrive in a fast-paced environment, learn rapidly, and master diverse technologies and techniques.
- Ability to work independently, remotely, and as part of a team.
- BS in Computer Science, technical, business, or related field.

Nice to Have:

- Development experience on the ServiceNow platform (i.e. Service Portal, Workflows, UI Policies, UI actions, script includes, import sets and transform maps).
- Experience in start-up environment.
- Experience in LMS / LXP software or Educational Technologies.
- Denver based preferred.

About us

PlatCore is an early stage software company focused on products based on the ServiceNow platform. We are looking for those who want to be part of a thriving, growing company. We are passionate about having a culture

worth protecting. Each team member plays a critical part in driving value for our clients, in current and future products, and sharing in the success of PlatCore.

We are passionate about our work, freakishly smart, curious, and each have something unique to offer, both professionally and personally. We are driven to make cool stuff that delivers huge value to our clients. If this describes you, we want to hear from you!
